

Visual-Audible Signalling

Series A+Q

ARGUMENT

- cubic design very popular sounders with same size led beacons in 3 main sizes
- 8, 32 or 63 tones selectable depending on model
- up to 3 tones externally switchable
- led steady/flashing or led multi-strobe beacons
- effective front and lateral signalling/performance
- primarily for wall mount applications
- for indoor and outdoor applications (IP66)
- sounders with 1 or more beacons combinable
- lower cost options with integrated small beacons/buzzers available as well: ADS-P/ADS-T, ADM/ACM, QSS/QCS, QSM/QCM

INDUSTRY/APPLICATION

- for industrial and general applications in practically all industries
- for indoor and outdoor applications (IP66)
- electrical wholesale
- customized models for crane/special vehicle applications

the Mighty &
the Bright

PRODUCTS

ASS-P/ASS-T + QDS/QBS	multi-tone alarm sounders + Led beacons
ASM + QDM/QBM	multi-tone alarm sounders + Led beacons
ASL + QDL/QBL	multi-tone alarm sounders + Led beacons

Series R

Market Launch April 2020/HMI fair

PRODUCTS

RDC+RBA	led steady beacon with audible base
RDM/RCDM+RBA	led multi-function beacons with audible base
RMM/RCMM+RBA	led multi-colour beacons with audible base

ARGUMENT

- combination of R- series beacons with multi-tone alarm sounder
- leading performance both visual and audible
- 32 tones selectable, 3 tones externally switchable
- up to 103 dB (A) infinitely adjustable sound pressure
- high IP66 rating for outdoor and indoor applications

INDUSTRY/APPLICATION

- for industrial and general applications in practically all industries
- for indoor and outdoor applications (IP66)
- electrical wholesale

The LED-Design-
Powerhouse

Series T

PRODUCTS

TDC+TDE	led steady/flashing beacons + piezo buzzer with high IP66 rating
TDF+TDE	led multi-strobe beacons + piezo buzzer with high IP66 rating
TMW/TMV	bases for horizontal/vertical mounting

ARGUMENT

- Ø 75mm medium size led beacon range with high IP piezo buzzer,
- excellent brightness and signalling effect
- continuous and pulsing tones, max. 100 dB (A) in 1m
- high IP66 rating for indoor and outdoor applications
- wide range of mounting options

INDUSTRY/APPLICATION

- for industrial and general applications in practically all industries
- electrical wholesale
- door, access and gate applications

the Allrounder

Series M22

PRODUCTS

ELM	panel mount buzzers Ø 45 mm with led beacon, max. 98 dB (A) in 1m
ELG	panel mount buzzers Ø 65 mm with led beacon, max. 103 dB (A) in 1m

ARGUMENT

- standard models with synchronized tone and light
- (continuous tone/led steady light – pulsing tone/led flashing light)
- high IP65 rating in panel mount condition
- sound pressure infinitely adjustable even in panel mount condition
- excellent price/performance ratio
- optional models available with separately switchable tone and light

INDUSTRY/APPLICATION

- for switch cabinet/panels and enclosures
- for versatile applications in industrial/general applications too
